

The Fallen Human Race.

By Father John Catoir, JCD- Oct. 27. 2018.

Beware all you Catholics who left your religion behind because of your misguided acceptance of Darwin's atheistic theory of evolution. Albert Einstein was correct when he said, "There must be a supreme intelligence behind the universe." The Book of Genesis is not literal history; however, it is Divine Revelation. The Adam and Eve story is a parable that teaches us the Divinely inspired truth that we are living in a fallen state.

The doctrine of Original Sin proclaims the fallen state of mankind. Original Sin makes us morally weak and causes many to despise the truth. Our weakened human nature is especially evident in our widespread acts of war. In the Nineteenth Century, the carnage of many wars devastated the world and destroyed millions of lives. How does Darwin's theory of evolution tie into this?

Look at the Nazi's and the Marxist Communists, both groups are grounded in the concept of "The Super Race," which came right out of Darwin's theory. The Nazi's believed they had the right to purify the super race by killing Jews, Gypsies, Negroes and yes even Catholics, all of whom were the targets of their mass murders. The Jews were the most hated; 6 million of them were cruelly murdered.

The doctrine of original sin is the result of Adam's refusal to obey the will of God. Today's world is on the brink of exploding once again for the same reason. Hatred still prevails over love. We fail to seek first the Kingdom of God.

The Atheistic Evolution Theory of Darwin is disputed even within his own inner circle. They divide in two main camps: 1) the Gradualists and 2. the Saltationists. The first group of Gradualists maintain that human beings have evolved gradually over the centuries through minor changes and major leaps of one species to into another up until the final stage, when the apes turned into men, through a process Darwin called "natural selection."

The Saltationists strongly disagreed, saying there is NO SCIENTIFIC evidence to prove Darwin's theory of gradualism. The Saltationists offered their own strange and unscientific explanation. They said that new species do appear, but only suddenly, after millions of years of stability; that a reptile one day laid an egg, which produced a bird. Centuries later the birds produced eggs which carried a baby mammal. Both groups do agree on one point; namely, that evolution itself came about without any Divine intervention.

"If any sane person believes this stuff, then he surely must believe in fairy tales," says Larry Azar, author of a 619-page book, with 42 pages of bibliography, entitled, "Evolution and Other Fairy Tales." It is an examination of the logic and cogency of Darwin's arguments, and concludes stating that there is no evidence given whatsoever to prove Darwin's Theory of Atheistic Evolution.

Science openly admits that it cannot explain the origins of the human race. Popes John Paul II, Benedict XVI, and Pope Francis have all approved the concept of "Theistic Evolution", which states that God is the first cause of everything in the created universe and admits that changes have evolved within each species due to growth and adaptation.

Peace be with you. May the Lord be your strength and your joy.
